The Latest Tablet Releases

[Panasonic FZ-G1](#)

The Toughpad FZ-G1 is Panasonic's first fully rugged Windows 8 Pro tablet which has been designed for mobile workers who spend much of their time working outside or from vehicles .

[GETAC F110](#)

The F110 is a large-screen rugged tablet that offers superior performance. Its large 11.6 inch display utilizes LumiBond technology to achieve better contrast and more crisp colors. Getac's multi-touch display technology makes the screen respond effortlessly to touch.

SNEAK PEEK

[Panasonic FZ-M1](#)

The Toughpad FZ-M1 is the thinnest* and lightest* rugged 7" fanless tablet with a 4th generation Intel® Core™ i5 processor

January 2014

Specialist Rugged Solutions

[Vehicle Solutions](#)

Roaming Technologies are the leaders in Vehicle Mounting solutions. We work with a number of key industry partners to supply an in-vehicle solution that is safe, secure and in compliance with the current vehicle standards regulations.

[Intrinsically Safe](#)

If you work in a hazardous environment you know that you just can't take an office device in to the field with you. Roaming Technologies recognises the need to have a local supplier to sell and support these specialist devices as we are pleased to be able to partner with the leading manufacturers. From PDA's through to rugged laptops and camera's we are able to supply you with the right device for the right zone with the confidence that they are certified to the industry standard.
